## PROJECTS

### Vitamin D Detector

- Takes in location and skin type to return the amount of time needed in the sun to get daily vitamin D. Before this project, this information could not be acquired in one place or app.
- Technology used: HTML/CSS, JavaScript, API, Axios, Netlify, AWS lambda
  - [Code](#)
  - [Live Project](#)

### Healing Waters Chiropractic

- The owner of Healing Waters Chiropractic wanted a professional website for her Chiropractic practice. They wanted to be able to make small changes to the site without having deal with editing HTML or CSS.
- Technology used: Webflow, HTML/CSS, Grid, Flexbox
  - [Live Project](#)

### To-do List Improved

- Worked within the existing code structure to implement functionality and design improvements.
- Technology used: HTML/CSS, JavaScript, Firebase Authentication and Firebase Realtime Database
  - [Code](#)
  - [Live Project](#)
